PRESENTATION

- The competitors will be present on September 14, 2006 before 18H00, in **Sines (Marina de Sines) PORTUGAL**, to confirm their final inscription. They will receive their badge and the complementary instructions.

COMPETITION

- The Championship will proceed through two consecutive days, with two hands of five hours each one, disputed on a maritime territory ranging as shown in the annex maps identified as "Zona Norte", "Zona Centro" and "Zona Sul". This territory will delimit two zones of competition and a zone of reserve (see the nautical map).
- The order and the choice of the of competition's zone, will be decided the day before of each competition, according to the conditions of the sea.
- If during the competition, the weather conditions are degraded or in the event of any situation beyond control, the organization considers necessary, for reasons of safety to reduce the prescribed time, the championship will be validated in the condition that 2/3 of the time planned for each day, be performed, that is 3 hours and 20 minutes. The total suspension of one of the competitions is strictly the competence of the International Jury. During the competition the need of partial suspension is the competence of the Director of Competition and the Judge CMAS.
- The competitors will have to use the official transport (boats), placed at their disposal by the organization. Any other means of transport will be prohibited. According with the provisions of the CMAS S.F. Commission, the organization is charged to provide three boats for each national team. Average of current logistics, are not enough to provide the totality of the boats with the same characteristics. The organization will provide, after the drawing made during the meeting of the

delegates, three boats with similar characteristics, to each nation. Each captain will have the responsibility to make the distribution of the boats allotted to his athletes.

- The organisation will make the best to get a fourth boat to the Captains. In this case, will be made another drawing.
- The zone of competition will be closed the day before the beginning of the championship, i.e. on September 15. The visit of the zone of competition will be made by the proper means of transport of the various teams.
- Two weeks (14 days) before competition, it is strictly interdicted to fish in the zones of competition, under penalty of exclusion. It is the same for the use of the “loco - plunger” and breathing apparatuses, that it is applicable for the members of the official participating teams in the championship as well to their assistants or guides.

EQUIPMENT OF UNDERWATER FISHING

- **It is only allowed the use of the following equipment:**
 - One or more spear guns with rubber bands or pneumatic guns only actuated by the muscular force of the competitor and without any external help.
 - Palms, masks, gloves, lamps, tubas, belts with weights, spears and hooks, knives, protective clothing, depth gauge, compass.
 - Each competitor will be able to use its own buoy, but will have to use the official buoy, given by the organisation, showing his number.
- **It is forbid:**
 - To use fish-holder in the belt.
 - To charge or to have a spear gun charged on board of the boat.
 - To hold a charged spear gun, suspended in the buoy.

METHODS OF CONTROL

- The organization will provide to each competitor an official buoy at the time of the final inscription, on September 14, 2006. The use of the official buoy is mandatory. In any case the competitor cannot give up its official buoy and will not be aloud to move away from the buoy more than 25 meters
- The organization will provide to each competitor, bags to keep the captures.

COURSE OF THE COMPETITION

- The starting and end indications of the competition are given by the Director of Competition.
- It is interdict to the competitors to change boat. In the event of breakdown, the boat commissary, will immediately inform the Director of Competition, which will quickly give instructions for a repair or a change of the boat. However, the competitor will be able to continue to fish, without deviating more than 25 meters of its official buoy. No protest will be allowed in the event of change of boat.
- The circulation and the operation of all official or any other boat included in the device of the competition must be carried out with prudence, by reducing the pace and respecting a distance from safety near the buoys of the athletes, in order to avoid any embarrassment or any accident. In this

precise case, they will be able to get information, if necessary, near the other commissaries, the localization of the competitors.

- The function of the boat commissioner is to drive the boat. It supervises the application of the rules. Where necessary, they provide the equipment kept on board, when the athlete is in water. They keep the captures in its fish bag and if the athlete asks it, they can to withdraw the capture out of the harpoon. The commissioner, will never charge the spear gun of the competitor.
- The captures, which are on the surface, must be put up on board, with the assistance of the commissioner, as soon as it is justified.
- The commissioner or any other person cannot recover from the bottom, the spears, belts of weight or some other part of the equipment of the competitor.
- It is forbid to make circles with the boat, the engine moving making noise, to cause the entry of fish in the holes.
- In the event of tiredness, of indisposition or other causes, the competitor wants to give up from the competition, he must to move towards its boat and to require to the commissioner, to obtain the authorization of the Director of Competition, to withdraw itself. Its captures will be entered in accordance with the regulations.
- During the competition, the official boats will use the following signals:

| | |
|-----------------------------|-------------------------------|
| Red Flag | Requires assistance, urgency. |
| White Flag and Sound | End of competition. |

- With the sight of the signal for end of the competition, the competitors must stop fishing immediately and move quickly towards their boat to go up on board. Any capture, which remains on the surface after the end of the competition, will not be entered.

CALCULATION OF THE POINTS AND VALID CAPTURES .

1 - The calculation of the points of each competitor, after each day, will be obtained in two phases:

First phase (PC – Traditional Punctuation)

- The number of points in groups I, II and III, is obtained by the attribution of a point per gram of each valid capture, and affected with the allowance or the penalization. The maximum number of points allotted to a valid catch of groups I, II and III for its weight is of 10.000 points. However, the actual weight of the largest capture, even if it exceeds the maximum weight, will be taken into account for the attribution of the trophy “O maior exemplar”.
- The allowance by each valid capture is of 500 points for groups I, II and III.
- The captures of group IV, enter only 2.000 points per capture. No penalization will be applied.
- The penalizations for each group are equal to the minimum weight of the specie, in negative points.
